

Information on the funding of international activities in Germany of the FGC-BGU

Refundable expenses:

- Conference fees (total or part of the charges)
- Flight costs (economy class only), as well as costs of travelling to and from airports.
- Hotel and rental costs (within reasonable limits).

Not refundable expenses:

- “Tagegeld” (if you have a working contract with TUM)
- Costs for food and drinks

Internal doctoral students with a TUM employment contract must submit a mission application. The journey is then to be settled in the travel expenses center. The approved FGC-BGU subsidy is to be indicated on the travel expenses application.

Essential documents:

- Completed application (attachment 1).
- A positive interim evaluation for your doctoral project.
- Your supervisor’s confirmation that the conference or workshop is meaningful for proceeding with the doctoral project and related research work.
- Information on the amount of conference fees.
- Confirmation that you have no other funding opportunities (possibly by letter or copy of the scholarship contract)
- A calculation of costs confirmed by the supervisor. Will the chair take over some of the costs?

The originals of all receipts for the de facto costs mentioned above are to be submitted. As for exceptions regarding travel expense advances, see Point III.1. If the billing is done in the context of an official trip, the documents for the official trip are to be submitted (application for reimbursement, calculations of the travel expense office, original receipts, withdrawal re- quests). We require a statement, confirmed by your supervisor, of how the remainder of the six-week international research period is to be (respectively was) organized and financed.

Guidelines for the list of documents:

Please note the following guidelines when putting together your documents:

- Original documents
- Tabular list of documents (Attachment 2: International Funding Table)
- Put numbers on your documents, so they can be matched to the tabular list.
- Please staple every receipt (to see front and back side) which is smaller than DIN A4 standard paper size on a white sheet that size.

What to do?

Contact

Graduate Center Bau Geo Umwelt (FGC-BGU) Dr.-Ing. A. Spengler
